

BONUS TAPE

BONUS TAPE

Self-adhesive polypropylene tape for manual packaging 28µm with natural rubber adhesive, available in: transparent, white or havana. High conformability and humidity resistant. Excellent adhesive capacity and resistance to temperature variations. Thanks to its 200m of length, it occupies less space than any other tape and you can effectively roll changes. **Available with 1.5 inch core. Printable.**

Technical Data	
Backing µm	28
Adhesive	Natural Rubber
Total thickness µm	45
Longitudinal tensile strenght kg/cm	4,5
Longitudinal elongation at break %	140
Adhesion to steel plate g/cm	250
Rolling ball tack cm	1

BONUS TAPE 1

Self-adhesive polypropylene tape for manual packaging, 25µm with natural rubber adhesive, available in: transparent, white or havana. High conformability and humidity resistant. Excellent adhesive capacity and resistance to temperature variations. Thanks to its 200m of length, it occupies less space than any other tape and you can effectively roll changes. **Available with 1.5 inch core.**

Technical Data	
Backing µm	25
Adhesive	Natural Rubber
Total thickness µm	41
Longitudinal tensile strenght kg/cm	4,0
Longitudinal elongation at break %	140
Adhesion to steel plate g/cm	250
Rolling ball tack cm	1

BONUS TAPE 2

Self-adhesive polypropylene tape for manual packaging, 25µm with hot melt adhesive, available in: transparent, white or havana. High conformability and humidity resistant. Excellent mechanical strength. Thanks to its 200m of length, it occupies less space than any other tape and you can effectively roll changes. **Available with 1.5 inch core.**

Technical Data	
Backing µm	25
Adhesive	Hot Melt
Total thickness µm	42
Longitudinal tensile strenght kg/cm	4,0
Longitudinal elongation at break %	140
Adhesion to steel plate g/cm	500
Rolling ball tack cm	1

BONUS TAPE 3

Self-adhesive polypropylene tape for manual packaging, 25µm, available in: transparent, white or havana. Acrylic water-based adhesive. Thanks to its 200m of length, it occupies less space than any other tape and you can effectively roll changes. **Available with 1.5 inch core.**

Technical Data	
Backing µm	25
Adhesive	Acrylic
Total thickness µm	43
Longitudinal tensile strenght kg/cm	4,0
Longitudinal elongation at break %	160
Adhesion to steel plate g/cm	230
Rolling ball tack cm	1

W- BONUS TAPE

Self-adhesive polypropylene tape for manual packaging, 28µm, available in: transparent, white or havana. Acrylic water-based adhesive. Thanks to its 200m of length, it occupies less space than any other tape and you can effectively roll changes. **Available with 1.5 inch core.**

Technical Data	
Backing µm	28
Adhesive	Acrylic
Total thickness µm	48
Longitudinal tensile strenght kg/cm	4,5
Longitudinal elongation at break %	160
Adhesion to steel plate g/cm	230
Rolling ball tack cm	1

BONUS TAPE AC-200

Self-adhesive polypropylene tape for manual packaging, 28µm, available in: transparent, white or havana. Acrylic water-based adhesive. Thanks to its 200m of length, it occupies less space than any other tape and you can effectively roll changes. **Available with 1.5 inch core. Printable.**

Technical Data	
Backing µm	28
Adhesive	Acrylic
Total thickness µm	48
Longitudinal tensile strenght kg/cm	4,5
Longitudinal elongation at break %	160
Adhesion to steel plate g/cm	230
Rolling ball tack cm	1
